

# TOTAL PET PLAN

provided by **Pet Benefit Solutions**

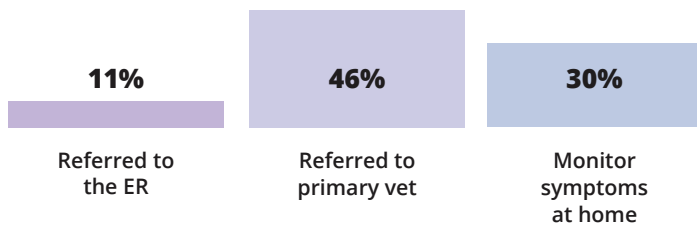

## VETERINARY SUPPORT WITHOUT LEAVING YOUR HOUSE

*Anyone enrolled in Total Pet has access to 24/7 pet telehealth, powered by AskVet.*

It's Saturday morning and your cat is refusing to eat her breakfast. You're not sure if you should take him to the ER and your primary veterinarian is closed.

Or maybe your dog suddenly began digging holes in your yard, and you don't want to wait for his next wellness visit to get tips on managing his new behavior.

**AskVet saves you time and money by assessing the urgency for veterinary care:**

### HOW IT WORKS

Simply chat **AskVet** with your pet's health or behavioral concerns to get real-time support from US-based veterinarians. It's that easy!

*"Samantha did not have any problems from eating the 1/2 bar of soap. But if she had, Dr. Aimee told me all the signs and symptoms to look for in case I needed to take her to the vet. I love this service."*

**-Tonya J., Georgia**

# AskVet

*AskVet is not a replacement for veterinary medical care. In the event of a true medical emergency, a pet should be taken immediately to the ER.*
