

Norton Parental Control Features

Help your child navigate their online world safely.

Easy-to-use tools allow parents to set screen time limits, block unsuitable sites, and monitor search terms and overall activity history.*

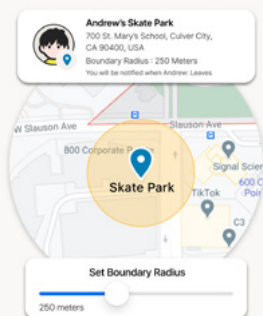

Parental Control

Easily control access to harmful or inappropriate content.

Alert Me

Automatically keep track of your child's location.

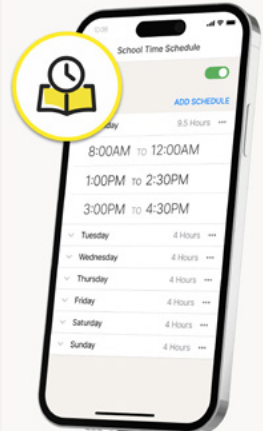

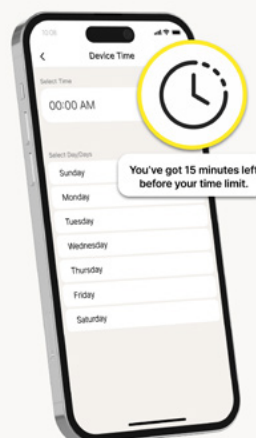

Set approved boundaries with a few taps.

Favorite Locations

Time Supervision

Create and manage time limits for device use.

Limit access to online activities during school.

School Time

No one can prevent all identity theft or all cybercrime.
Screens modified for demonstration purposes and subject to change
* Not all features are available on all platforms. Presently not supported on Mac OS.

Parental Control Features	Windows	iOS	Android
Activity History See at-a-glance what your child is doing on their devices and how much time they've spent on them, so you can easily spot trends and emerging habits.	●	●	●
App Supervision¹ Shows you the apps your child has downloaded on their devices and the amount of time your child spends on each app. You can also restrict them from using certain apps.	●		●
Instant Lock² You can help your child take a break by locking a device so they can re-focus, concentrate on schoolwork, or join a family activity. Once in lock mode, the device's applications, web browsers, games, programs, and more are inaccessible, until manually disabled. Parents and children can still contact each other while the device is in lock mode.	●	●	●
Location Supervision³ Stay informed on your child's location with a map locating their Android or iOS device. A 30-day history to show where they've been is provided.		●	●
Monthly/Weekly Reports⁴ Get detailed reports of what your child is doing online, right in your inbox or via the portal.	●	●	●
Parent Portal Helps you manage your child's online activities with an easy-to-use web portal via family.Norton.com. Parents can also access the portal by going to my.Norton.com and selecting Parental Control.	●	●	●
School Time⁶ We help you keep your child focused on schoolwork by allowing access to specific sites required by your child's school and help to block other internet distractions while school is in session.	●	●	●
Search Supervision[*] See the words, terms, and phrases your child is searching for to gain insights into their interests and help protect them from inappropriate content.	●	●	●
Time Supervision Stay on top of how much time your child spends online and help them foster healthier online habits.	●	●	●
Video Supervision[†] See a list of the YouTube videos your kids watch on their devices and even view a snippet of each video, so you know if you need to talk.	●	●	●
Website Access Request[‡] Open the lines of communication by enabling your child to message you within Norton Family if they disagree with a blocked site or a house rule.	●	●	
Web Supervision[§] Stay informed on what sites your child visits and utilize supervision tools to help them avoid unsuitable content.	●	●	●

No one can prevent all cybercrime or identity theft.

Windows Operating Systems
Microsoft Windows 11/10 (all versions except Windows 11/10 in S mode)
Microsoft Windows 8/8.1 (all versions except Metro browser)
Microsoft Windows 7 (32-bit and 64-bit) with Service Pack 1 (SP 1) or later

Android Operating Systems
Android 8.0 or higher.

iOS Operating Systems
Current and previous two versions of Apple iOS.

Mac Operating Systems
Norton Parental Control features currently not supported.

¹ Android and Windows only. See System Requirements at Norton.com/sysreq for current OS we support.

² For Android devices, user sets a PIN to unlock the device or contact someone in case of emergency. For iOS devices, user needs to install a profile to enable the Instant Lock feature and must login to their account to lock/unlock.

³ Location Supervision features are NOT available in all countries. For more information on availability refer to the feature support page for Location Supervision [here](#). To work, the child's device must have Norton Family app installed and be turned on.

⁴ Parental Control Activity weekly and monthly reports sent via opt-in email.

⁵ Parental Control features are not supported on Mac, or Windows in S mode.

⁶ School Time Usage reports are not available on iOS devices.

^{*} Search Supervision requires a supported browser extension on Windows and the in-app Norton Browser on iOS and Android.

[†] Video Supervision requires a browser extension on Windows and the in-app Norton Browser on iOS and Android. It monitors videos viewed on YouTube.com (but not YouTube videos embedded in other websites or blogs) and on Hulu.com (but only on Windows). It does not work with the YouTube or Hulu apps.

[‡] Website Access Request requires a supported browser extension in Windows and the in-app Norton Browser on iOS. Feature not available for Android.

[§] Web Supervision requires a supported browser extension on Windows for full functionality.
